

Charity Rice Planting Tour at Tomi City, Nagano Prefecture

This rice planting trip is a charity trip where **5kg of newly harvested organic rice from each tour participant would be donated to non-Japanese in economically difficult situations in Japan via official charitable organizations.**

We meet up four times a year to carry out this rice planting trip. Feel free to join us all four times or any time that you are available.

Tour Participants can experience and learn

- Organic sustainable rice farming methods
- Enjoy a farm to table lunch with Japanese homestay *okasan* (all produce used to make lunch would be from the farm you work on)
- Feel for yourself and understand the importance of sustainable farming methods to not only protect the environment, but also traditional farming methods
- A borderless and interactive experience with the Japanese farmer, and have mutual exchange of cultures
